Rhode Island Department of Education

July 10, 2012

Agenda

- Introductions
- Overview of Professional Development Series
- Expectations for 3-day training
- Roles
- Questions

Introductions

- Lindsay Wepman
RTTT Assessment Specialist
RIDE
- Dan Costello
Project Manager
Wireless Generation

Overview

- 10 days – one trainer for all trainings
 - 3-day initial training in August or September
 - 3 days of “just-in-time” PD in school year
 - 3 days of on-site coaching visits
 - 1-day reflection/planning workshop
- SDLT members and District Data Liaisons
- 30 Cohorts created this year – 136 schools in Year 1
- Tiered training content and cohort formation based on:
 - data experience
 - school level
 - location

3-Day Training

- Held in August or September
- 3 days, not consecutive – SDLTs will access school or district data in between sessions.
- One coach for the training series
- Leave with training materials
- “Homework” for participants
 - Turnkey materials
 - How can *you* support them?

Your Role

- District Data Liaison (DDL)*
 - Attend all off-site workshops
 - Understand the work from principal/teacher view
 - Create systemic supports at district level
 - Help monitor implementation of data use
 - Think short term and long term
- * This may be Point Person (in charge of location, materials, and other training logistics)
- ** There may be more than one DDL per district. Please contact RIDE for more information.
